

NOTICE TO MEMBERS

No. 2019 – 004 January 2, 2019

Trading by U.S. Residents

Canadian Derivatives Clearing Corporation (CDCC) maintains registrations with various U.S. state securities regulatory authorities to permit the sale of certain standardized options traded on the Bourse de Montreal (CDCC Options) to residents of the Unites States and the District of Columbia (State Residents). This is a reminder that, as a condition of some of these state securities registrations, CDCC is required to periodically report to the appropriate state securities regulatory authority all CDCC Options transactions during the reporting period entered into by the State Residents of the relevant state.

It is essential, therefore, that every CDCC Clearing Member report to us, on a monthly basis, all CDCC trades by State Residents. Please use the attached form which reflects the current reporting requirements for the relevant state securities regulatory authorities. A report is required only if your firm processed transactions for State Residents during the reporting period.

Please note this report must be submitted to cdcc-ops@tmx.com ON OR BEFORE THE TENTH BUSINESS DAY OF EACH MONTH.
